It is well worth the while of a visitor to Peking to make a journey there, taking Miso-feng Shan and T'ang Shan on his way: Before the Ts'in Dynasty, sovereign and subject both spoke of themselves as IK, but that Dynasty confined the word to Emperor, whilst subjects spoke themselves to the Emperor as In addressing the Emperor Shun, the (afterwards) "Great" Yth spoke of himself as T. Mr H. Hoppius, Clerk of the Scales Hon. P. Ryrie and Mr W. H. F. Darby, Starters. Mr A. Coxon, Judge.

The Races to-day were interesting, if not exciting, and the blue ribbon of the meetwas deservedly won by Mr Brandt, with Second Violin. The neat little speeches spoken on the presentation and on the acceptance of the Purse are elsewhere recorded. One of the features of the meetting has been the success of the enterprising turf-lover Mr Gordon, whose success everybody has been glad to witness, as everyone knowsthathe inaugurates a new era in racing matters here and introduces a new system which if carefully carried out will do much to make the Hongkong Races more ever been before. Mr Gordon has won more races than, we believe, have ever before been won by any stable. Do. Fifteen, 10st. (Betts), 0 A fine field turned out for this race, which formed as usual one of the most interesting events of the meeting. Mr. Gordon and Mr Kerfoot each ran two ponies and declared to win with the best. After some difficulty in starting so large a field-they got away fairly together, and the pace was made rather fast. When about half way round, Second Violin drew ahead and won by about two lengths. Vagabond and Merry Andrew had a hard tussle for second place, the others finishing several lengths behind: Time, 1min. 531 seconds. The much-covetted prize was then pre-

sented to the winning rider, Mr Brandt, by Miss Churchill.

Miss Churchill said, that she had had some diffidence in entertaining the suggestion that she should present this prize to-day; but she had now much pleasure in doing so and in presenting it to the gentleman who came before her to claim it. She had been asked by her lady friends and by others, to try to say something different from what was usually said on occasions like the present, but she was afraid that all she would say in presenting the prize was what had been often said before on similar occasions, and that was that the ladies of Hongkong hoped that he would be as successful all through life and in all his sporting adventures as he had been to-day.

REGINA V. PAGE.

23rd Feb., 1881; In this case Mr Parkhill, Principal Tide Surveyor and Harbour Master, was to-day examined by Mr Francis.

In the course of his evidence he was asked to give Page's account to him of what transpired on the day when the alleged killing took place. To these questions Counsel for the prisoner made objection, and a long legal argument ensued.

It is understood that the Judge give his decision to-morrow morning. The question at issue is very important,

and the settlement will doubtless materially affect the case for the prosecution.

THE CHINA REVIEW.

THE widely-expressed regret at the dis-China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such-

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residenta in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tugueso, are admissible. Eudeavours are made to present a resume in each number of the contents of the most recent attention is also paid to the Review

department. Notes and Replies are classified together ss. "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August. 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are escortaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. - Ad-

dress China Review, Hongkong.-Northern Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number new before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the lieview by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness

of style; and an account of the career of

the Chinese poet-statesman of the eleventh

century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also

distinguished by its literary grace. Beside notices of new books relating to China and

the East, which will be a useful feature of

the Review, if carried out with punctuality

and detail, we are glad to notice that "Notes" and "Queries" are destined to

find a place in its pages also. It is to be

hoped that this opening for contributions

on Chinese subjects may evoke a similar

degree, of literary zeal to that which was

displayed during the lifetime of its predecessor in the field, and that the China Keriew

may receive the support necessary to insure its continuance. The publication is intend-

ed to appear every two months, and will

form a substantial octavo magazine.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business audiegal footing.

The projectors, basing their estimates upon the most reliable information from the various Forts in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally w 1 find It to their interest to avail themselves of

The field open to a paper of this descrip tion- sonducted by native efforts, but progressive and anti-obstructive in tone—in almost limitless. It on the one hand commands Chinase belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorialswith Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN,
